

LOUVER LENS™

AIR HANDLING LENS

3/4" X 3/4" X 1/2" 19 x 19 x 13mm

SLP's Louver Lens™ offers complete lamp concealment and a low turbulence air handling function in one panel. Well suited for luminaire or ceiling applications this durable clear acrylic product will easily withstand repeated cleanings making it an excellent choice for areas with demanding maintenance requirements. Louver Lens™ is molded in a clear refractive form and is also available with an optional black accent that delineates the cellular pattern.
