

DEEP CELL RETROFIT KITS

RFK3

DIFFERENT CELL CONFIGURATIONS FOR DIFFERENT LIGHTING REQUIREMENTS

RFK3 is a series of highly versatile nominal 3" deep parabolic aluminum retrofit kits. These assemblies are designed to be installed between an existing luminaire and the inverted tee bar ceiling system. The wide variety of cell configurations that are available assure the optimum blade spacing, cut-off and efficiency for each application. RFK3 raises the fixture 2.58" up into the plenum area.
