

SMALL CELL EGGCRATE

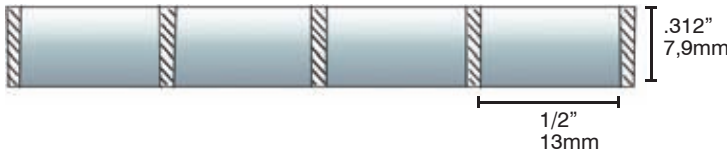

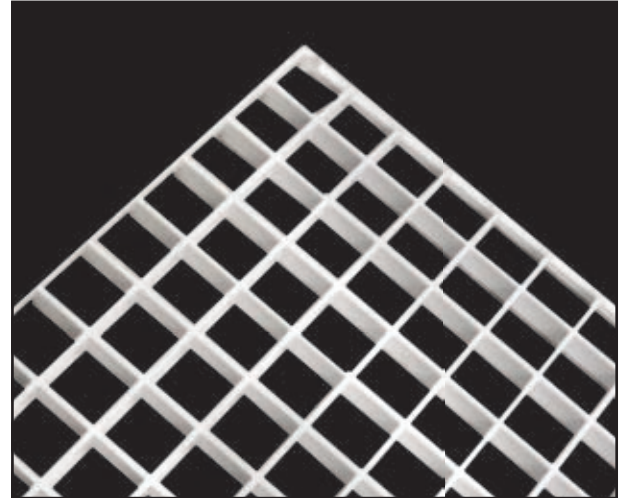

NOMINAL 1/2" X 1/2" X 3/8"

ACTUAL: 13 x 13 x 7,6mm

BLACK & ACRYLIC: 13 x 13 x 9,5mm

SLP's Thincell™ TC500 is an injection molded cube louver that has the traditional half inch cell size but with a reduced thickness to provide the economy everyone is looking for. Standard material is white styrene. TC500 is molded as a 2'x4' and is available in lesser nominal sizes.

The .312" (7,9mm) thickness offers an important freight advantage when cube and container capacity is an issue. All full size parts include a half lap perimeter detail that facilitates continuous row applications with an unbroken appearance.
